Brief Programme Details:

Career readiness and employability skills have become an increasingly critical part of education. Employers are desperately seeking people with a combination of skills that seem to fall under this career readiness and employability umbrella that also include such things as soft skills, customer service skills and life skills. Thus with this thinking approach a free workshop was organized on employability training as part of the CSR activity powered by Barclays India. The following key activities were undertaken to improve student employability

- Key basic skills
- Transferable skills: writing, research, initiative, leadership
- Job-specific skills – the right skills, the right way
- Identifying and addressing skill gaps
- Building confidence and leadership ability
- Help and advice with finding work
- Work experience, placements and internships

Conclusion:

This training was a great opportunity for all the participants! It really emphasised the need to develop the employability skills in order to be successful in today's job market. Further to this, it provided with practical ways of doing this.

Quote:

"In a high-IQ job pool, soft skills like discipline, drive and empathy mark those who emerge as outstanding."
